

SALT ROCK BEACH RESORT - BALLITO

FRIDAY 13 TO SUNDAY 15 MARCH

Friday afternoon was a short walk to the Rock tidal pool and back to camp.

Early Saturday we drove to Sheffield beach for a walk to Tinley Manor. A few members of the group stayed by the tidal pool, while the rest of us walked further to try and see if we could view the construction of Club med. We were unsuccessful and rewarded ourselves with a cooling off swim in the tidal pool on joining the rest of the group.

Footprints on the beach

Brian hosted the group at his home for a very pleasant braai in the evening.

Sunday morning we met at Simbithi Eco Estate and had a very interesting walk on various trails in the forest.

There were unusual trees - Brian's favourite being the Swamp Fig and it looked almost prehistoric. The main trunk was bent over as the canopy prevented it from growing straight up and it had put out "legs" to support it.
